

PCAM online PhD seminar program

PhD talk series. Default date: Thursdays, 15-16 o'clock (16-17 in Lithuania)

13.5. Introduction: Talk No.1

15-15:10 The European PhD network PCAM and the all-new online seminar program / Horst-Günter Rubahn

15:10 Short introduction of the host university / Morten Madsen

15:15 Short introduction of the co-host university / Nadine Witkowski

15:20 – 15:45 Mariam Ahmad, *Functional interlayers in organic solar cells: Surface studies and device performance*

15:45 – 16:00 discussion

17.6. Talk No.2

15-15:10 Francesco Montalenti: *Studying in Milan at the University of Milano-Bicocca (suggestion)*

15:10 – 15:45 Luca Barbisan: *Vacancy-mediated climbing motion of edge dislocations in Ge/Si films: Atomic-scale insights via molecular dynamics simulations*

15:45 – 16:00 discussion

08.07 Talk No. 3 would like to present one week earlier, possible?

15 – 15:10 Nadine Witkowski: *Why you should study at Sorbonne (suggestion)*

15:10 – 15:45 Erika Fallacara, *Modeling isotope effects in condensed matter and molecular systems*

15:45 – 16:00 discussion

16.09 Talk No. 4

15:00 - 15:10 Wolfgang Ernst and Oliver Hofmann:

Austria as member of PCAM: highlights that make GUT an excellent place to visit

15:10 - 15:45 PhD talk tbd

15:45 – 16:00 discussion

14.10 Talk No. 5

15-15:10 Sigitas Tamulevičius: *Materials science and nanotechnologies at Kaunas University of Technology*

15:10 – 15:45 Erika Rajackaitė: *Microwave plasma assisted chemical vapour deposition of graphene*

15:45 – 16:00 discussion

18.11 Talk No. 6

15-15:10 Miguel Manso: *Who, where and what... why making my PhD internship at UAM campus*

15:10 – 15:45 Rodrigo Calvo Membibre: *Drug tracking plasmonic sensors*

15:45 – 16:00 discussion
